

Congratulations kaija! No one guessed May 13, so kaija wins the prize!

On February 27, I ran a [contest](#) open to all coinbraggers to guess the date that kaija would hit 20,000 bragger tokens. No one guessed the correct date so that means kaija wins the 1 Crown commemorative coin from the Isle of Man! Congratulations on 20,000 bragger tokens, kaija. That's an incredible accomplishment.

I do plan to start running more contests in the future. I do hope more people will participate: only 12 guesses were submitted for this contest.

You can see the listing where I bought the coin from here: [Isle of Man 1 Crown Coin](#). It looks like there's 2 still available.
